PROFILE SUMMARY

Highly motivated and detail-oriented second-year B. Tech Computer Science and Engineering student with strong skills in Python, C, C++, HTML, CSS, and JavaScript. Experienced in developing responsive and user-centric web applications with a focus on clean and efficient coding practices. I am skilled in problem-solving, debugging, and optimizing code performance. Well-versed in data structures and algorithms (DSA) with a solid understanding of core programming concepts. Passionate about software development, web technologies, and AI/ML, with a commitment to continuous learning and innovation.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Aug 2023 - Present

Shobhit Institute of Engineering & Technology — Meerut, Uttar Pradesh

RELEVANT COURSEWORK

- Internet and Web Technology
- Design and Analysis of Algorithms
- Machine Learning

TECHNICAL SKILLS

- **Programming Languages:** Python, C, C++
- **Web Technologies:** HTML, CSS, JavaScript
- **Tools and Technologies:** Git, GitHub, Visual Studio Code
- **Operating Systems:** Windows, Linux

PROJECT

Waste Management System

April 2025 - Present

Technologies: HTML, CSS, JavaScript, PHP, MySQL

- Engineered a full-stack web platform for waste issue reporting with secure authentication and role-based access for users and admins.
- Designed dynamic complaint submission workflows with image uploads and real-time status tracking using a structured MySQL database.
- Focused on responsive UI/UX to ensure seamless multi-device access and enhance community participation in municipal waste management.

Link: [Click](#)

Personal Portfolio Website

Technologies: HTML, CSS, JavaScript

- Designed and developed a personal portfolio website to showcase projects, skills, and achievement
- Implemented responsive design for seamless performance across multiple devices.
